MANITOWOC MARINA
2010 Spring Launch & Commissioning Form
(Page Two)

Please indicate any other work you would like us to perform for you in the following space: _____

DEFINITIONS:

Recommission Engine: Check all oil levels, check for oil pressure if engine has instrumentation to do so, check for cooling water discharge and overheating conditions, check for general smooth operation, check & tighten belts.

Service Batteries: Check electrolyte levels, check specific gravity, clean terminals and direct battery connections.

Service Running & Cabin Lights: Check and replace burned out bulbs, inform owner of wiring deficiencies in need of correction.

Recommission Water System: Flush non-toxic antifreeze from lines and tanks, inspect for leaks and pump failures, flush manual pumps including iceboxes, clean tank strainers.

Recommission Head System: Cycle sea water through pump mechanism, check for leaky check valves, charge head with chemical.

Recommission Deck Washdown: Cycle sea water through system voiding antifreeze, check for leaky connections.

Clean & Lube Seacocks: Dismantle valves and re-lube. This must be done before the vessel is launched.

Reinstall Instruments and Compass: Install instruments and compass in original location and test operation.

Step Spar: Set spar in or on vessel in up right position with approximate tuning, make instrument & lighting connections. Spar will be checked for operational lighting before stepping spar. This service does not include fine tuning of the rigging.

NOTE: ALL ACCOUNTS MUST BE PAID IN FULL AND WINTER COVERS REMOVED BEFORE BOAT CAN BE LAUNCHED.

LEGAL CLARIFICATION: If no specific date is given for launching, the first available date will be assigned to that vessel. Should an owner, or his representative, request to be present during launch and is not present at the appointed time, the vessel will be rescheduled for the next available launch date. It is the owner's responsibility to confirm his/her launch date and time two (2) days in advance. Manitowoc Marina reserves the right to adjust launch dates and times due to situations beyond its control; i.e. weather conditions, mechanical problems, emergencies, etc. Manitowoc Marina shall proceed with due diligence to perform the specified work, but shall not be liable for any delays in completion of the work from any causes whatsoever. Time is not of the essence.

Manitowoc Marina warrants its work for six (6) months following completion, provided the Marina is notified within such period of any defect and the vessel is brought to the Marinas' facility for repair. However, the Marinas' limited warranty does not extend to any machinery, equipment or material manufactured or supplied by others. Any implied warranties, including any warranty of merchantability, fitness for particular purpose or seaworthiness, are limited to the duration of the Marinas' warranty. Manitowoc Marinas' warranty is limited to the actual invoice amount covering the work that was performed.

In addition to those liens arising under state or federal law, as Vessel Owner, I grant Manitowoc Marina a security interest in the vessel, its equipment, furnishing and other appurtenances, to secure sums due under this agreement, including costs and attorneys' fees. In accordance with the lien granted, I further extend to the Marina a license to board the vessel, in the event of my default, and remove any machinery, equipment or material the Marina provided or installed. This license shall be deemed coupled with an interest and may not be revoked. Manitowoc Marina reserves the right to file a financing statement with the Wisconsin Department of Financial Institutions evidencing its security interest in the vessel at any time after consummation of this agreement.

This agreement shall be in effect for the above stated period unless sooner terminated by destruction of facilities by storm, ice, freezing, fire or any other occurrence.

Special Conditions:

The Marina reserves the right to adjust launch dates due to situations beyond its control; i.e. weather conditions, low lake levels, mechanical or structural problems, emergencies, etc.

I have read, understand and authorize the above work to be completed by the Manitowoc Marina. By providing a launch date, I have authorized the Manitowoc Marina to launch my vessel and move it to its appropriate slip. I expect to be charged the Marinas' usual and customary time and materials rates for all of the work I have authorized.

(Vessel Owner or Owners Representative)
